

UNIVERSITY OF MARYLAND, COLLEGE PARK, MARYLAND

DECEMBER EIGHTEEN, NINETEEN HUNDRED SEVENTY NINE

UNIVERSITY OF MARYLAND, COLLEGE PARK, MARYLAND

DECEMBER EIGHTEEN, NINETEEN HUNDRED SEVENTY NINE

Chancellor's Message to the Graduates

We are gathered here today to honor some 2,100 graduates from more than 200 fields of intellectual study.

You and your families should be extremely proud of the dedication and perseverance each of you has exhibited in order to be present here today. You selected a goal and stayed with it to successful completion. Congratulations.

The primary purpose of a university is to help individuals acquire the knowledge and skills to be capable of making sound judgments and contributing to the overall advancement of society. In particular, a university must work to create an environment conducive to the discovery, critical examination, preservation and transmission of knowledge, wisdom and values. Therefore, a university must be judged, not only by your accomplishments, which we honor today, but also by your success in working to improve the quality of life which ultimately ensures the survival of present and future generations.

As you embark on a new frontier of life, we hope you will maintain contact with your University. By your past experiences and valuable suggestions, we are best able to discover how to improve our service to the students who follow you, to the citizens of the community, the state and the nation.

Best of luck and every good wish for the future. We hope to hear from you often.

R. L. Gluckstern
Chancellor

Order of Exercises

December 18, 1979
10:00 a.m.

Conductor, Mr. Wakefield

The Alma Mater
HAIL! ALMA MATER!
Hail to thee, Maryland!
Steadfast in loyalty
For thee we stand.
Love for the Black and Gold,
Deep in our hearts we hold,
Singing, thy praise forever,
Throughout the land.

Maryland Victory Song
Maryland we're all behind you
Wave high the Black and Gold
For there is nothing half so
glorious
As to see our men victorious.
We've got the team, boys
We've got the steam, boys
So keep on fighting, don't give
in M-A-R-Y-L-A-N-D
Maryland will win.

The College Park Campus and The University

The Graduates

The students graduating from the University of Maryland today follow in the footsteps of many notable UM graduates who have distinguished themselves in fields as diverse as science, the arts, entertainment, journalism, business, law, medicine and government.

Known as the highest ranking woman in broadcasting, Jane Cahill Pfeiffer is Chairman of the National Broadcasting Company where she is in charge of government relations, legal affairs, employee relations, news policy making, and corporate planning. The 1954 speech and dramatic arts graduate is a former vice president for communications and government relations at IBM.

Through Kermit the Frog, Miss Piggy, and others, Jim Henson conveys a refreshing form of entertainment that touches the hearts of young and old alike. By the time he graduated from UM in 1960, Henson was developing successful TV commercials in the area. "The Muppet Show," created in 1976, is syndicated on 126 stations in the U.S. and is seen in 41 other countries.

The first woman elected to the Supreme Court of Michigan, Mary Stallings Coleman has been influential in developing many innovative programs for juvenile welfare. A 1935 arts and sciences graduate of UM, Coleman is a firm believer in rehabilitation and crime prevention and has established pre-court services for children in danger of becoming school drop-outs and education programs for underprivileged mothers in an effort to curb child abuse in Michigan.

Known as one of the youngest graduates of the University, Charles Fefferman graduated in 1966 at 17 when he received a joint degree in mathematics and physics, just three years after becoming a full-time UM student. One of the world's top mathematicians, Fefferman recently received the Fields Medal, the most prestigious award a mathematician can receive. He is currently a professor of mathematics at Princeton.

Other outstanding UM graduates include Connie Chung, a 1969 journalism graduate, who anchors the news at KNXT-TV in Los Angeles; Carmen Balthrop, a Metropolitan Opera singer and 1971 UMCP Music Alumna; and Tom McMillen, a 1974 Arts and Sciences graduate and Rhodes Scholar, who is playing professional basketball for the Atlanta Hawks.

The Campus

In enrollment, College Park is among the 10 largest campuses

in the country. Undergraduates enrolled in fall 1979 numbered 29,835 and graduate students, 7,357 for a total enrollment of 37,192. This year's College Park operating budget is \$168,287,152. The University assisted over 8,000 College Park students with financial aid in 1978-79.

Students may choose from 72 undergraduate and 70 graduate programs leading to degrees. In 1978-79, a total of 5,261 undergraduate, 1,255 master's and 367 doctorate degrees were awarded by the College Park Campus. In the number of doctorates granted annually, the University ranks among the top 30 in the nation.

History

The University had its beginnings in 1807 with the establishment in Baltimore of the College of Medicine, an entirely faculty-owned institution granting the M.D. degree. When its name was changed to the University of Maryland five years later, it was given power to confer additional degrees. The first dental school in America, the Baltimore College of Dental Surgery, became a part of the University in 1840. Subsequently, the University opened schools of pharmacy, law and nursing. Under a charter secured by a group of Maryland planters in 1856, the College Park Campus of the University, then called the Maryland Agricultural College, opened in 1859 and became one of the original land-grant schools in 1865. After a disastrous fire in 1912, the State acquired control of the College and bore the cost of rebuilding. In 1920, the State took over the faculty-owned University of Baltimore, merging it with the State-owned institution at College Park to form the present-day University of Maryland. In 1886, the Delaware Conference Academy was founded by the Methodist Church in Princess Anne, Maryland. The State acquired this institution in 1948. It was made a campus of the University in 1970, and is known as the University of Maryland Eastern Shore (UMES). A new campus known as University of Maryland Baltimore County (UMBC) was opened at Catonsville in 1966.

Libraries

University libraries include approximately 1,283,200 volumes on the College Park Campus, 16,645 subscriptions to periodicals and newspapers, plus over a million microform units.

The Undergraduate Library has a seating capacity of 4,000 students and is among the nation's largest. Facilities include a quadraphonic concert room, color video-tape players and playback units, enclosed rooms equipped with instructor's

consoles for the use of nonprint media materials, and wireless stereo headsets for tapes of lectures, plays, speeches and music.

Research Facilities

Among the exceptional research facilities are a 140 MeV cyclotron; a nuclear reactor; scanning electron microscopes; subsonic, supersonic and hypersonic wind tunnels; an electron ring accelerator; a precision encoder and pattern recognition device; a gravitational radiation detection system, including a gravimeter on the moon; a quiescent plasma device (Q machine); a psycho-pharmacology laboratory; three retro-reflector arrays on the moon; rotating tanks for laboratory studies of meteorological phenomena; Van de Graaff accelerators; a laboratory for basic behavioral research; an assortment of computers; the Astronomy Observatory Center of Materials Research; the Institute for Fluid Dynamics and Applied Mathematics; the Institute for Molecular Physics; and the Water Resources Research Center.

The College Park Campus also owns and operates one of the largest and most sophisticated long wavelength radio telescopes (located in Clark Lake, Calif.) and a cosmic ray laboratory (located in New Mexico).

In addition to these research opportunities in the biological, mathematical and physical sciences, research programs in the behavioral sciences, social sciences and education exist in many bureaus and institutes including the Bureau of Business and Economic Research, the Bureau of Educational Research and Field Services, the Bureau of Governmental Research, the Institute for Child Study, the Institute for Criminal Justice and Criminology, and the Institute for Urban Studies.

Academic Costume

The black caps and gowns worn by the students and faculty in the academic procession are of ancient origin. They have been the traditional costume of the scholar since medieval times and probably represent an adaptation of the ecclesiastical dress since many of the scholars of that period were members of monastic orders.

An intercollegiate commission in 1893 drafted a uniform code for costumes which has since been adopted by the majority of colleges and universities in the United States.

Each of the three academic degrees—bachelor, master and doctor—has its own distinctive gown and hood. The bachelor's gown is distinguished by its long pointed sleeve. The master's gown has a longer, narrow, closed sleeve, extending below the knee; the arm is passed through a slit at the elbow. In contrast,

the doctor's gown has a full bell-shaped sleeve with three bars of velvet. The opening of this gown is faced with wide velvet bands. The velvet trim may be black or of a color indicating the general field of learning of the wearer, for example, blue for philosophy, green for medicine, purple for law.

The most colorful and distinctive item of the academic costume is the hood which passes around the neck and extends down the back. The doctor's is the largest of the hoods and the bachelor's the smallest. The bachelor's hood is often omitted. The color of the velvet edging indicates the field of learning. Below is given a list of department or faculty colors.

Agriculture/Maize
Arts, Letters, Humanities/White
Business Administration, Commercial Science/Drab
Dentistry/Lilac
Economics/Copper
Education, Pedagogy/Light Blue
Engineering/Orange
Fine Arts, Architecture/Brown
Forestry/Russet
Home Economics/Maroon
Laws/Purple
Library Science/Lemon
Medicine/Green
Music/Pink
Nursing/Apricot
Oratory/Silver Gray
Pharmacy/Olive
Philanthropy/Rose
Philosophy/Blue
Public Health/Salmon
Physical Education/Sage Green
Science/Golden Yellow
Social Service/Citron
Surgical Chiropody/Nile Green
Theology and Divinity/Scarlet
Veterinary Sciences/Gray

The colors of the silk lining exposed in the center of the hood are those of the college or university which conferred the degree.

The cap or "mortar board" is uniform in design for all degrees. The tassel may be either black or the color of the field of learning. The tassel of the doctor's cap may be gold.

From Europe the use of academic degrees spread to English

universities. Harvard University, the College of William and Mary, and Yale University followed the British pattern in the United States.

Academic Degrees

The degree is awarded for the successful completion of a course of study. There are more than 1,600 different academic degrees currently conferred by American colleges and universities.

The first known degree was a doctorate conferred by the University of Bologna (Italy) in the middle of the 12th Century. Originally, the doctor's and master's degrees were used interchangeably, each indicating that the holder was qualified to give instruction to students. The bachelor's or baccalaureate degree indicated only entrance upon a course of study preparatory to the doctorate or mastership. Gradually, however, the bachelor's degree came to mean successful completion of one level of study preparatory to the higher degrees.

The Doctor's Degree

This is a term meaning teacher, or instructor, applied by ancient Romans to those who delivered public lectures on philosophical subjects. In the Middle Ages, from the 12th century, it came into use as a title of honor borne by men of great learning. It was first made an academic title at the University of Bologna, which received from the emperor the right of appointing *doctores legum* (doctor of laws). The University of Paris followed in 1145. Soon after, the popes granted the universities the right of appointing doctors *canonum et decretalium* (teachers of the canon law), and when the study of civil law came to be combined with that of the canon law, the title was changed to *doctor utriusque juris* (teacher of both laws). The faculties of theology and medicine followed that of law in conferring this title.

The doctorate in philosophy and science, and occasionally in theology and law, is given beyond the baccalaureate degree and requires two to five years of study, the writing of a thesis, and the passing of written and oral examinations. The doctor's degree represents the most advanced earned degree conferred by American institutions. There are two distinct types: the professional or practitioner's degree and the research type. The first type represents advanced training for the practice of various professions, principally Doctor of Medicine, Doctor of Dental Surgery, Doctor of Veterinary Medicine, Juris Doctor and Doctor of Pharmacy. These degrees carry no implication of original research and are classified by the U.S. Office of Education, with bachelor's degrees, as the first

professional degrees. The University of Maryland awarded the first two dental degrees in history, on March 9, 1841, and invented the name of the degree, D.D.S., as well.

The second type of doctor's degree is classified as the research doctorate representing prolonged periods of advanced study, usually accompanied by a dissertation which is designed to be a substantial contribution to existing knowledge on the subject. The most important of these, the Doctor of Philosophy, no longer has an implication of philosophy for its holder, but represents advanced research in any of the major fields of knowledge. It was first awarded in the United States by Yale University in 1861.

The first Ph.D. was awarded by the University of Maryland in 1920.

The Master's Degree

The master's degree is an academic honor conferred upon students who have successfully completed work in advance of the baccalaureate. A thesis and an oral examination are usually required. The word *magister*, connected with a qualifying phrase, was used among the Romans as a title of honor, but its present meaning must be traced to the time of the establishment of the oldest universities. Regularly organized facilities were not then known as they now exist in the universities. The whole circle of academic activity was limited to seven liberal arts, and those who received public honors on the completion of their courses of studies, for their diligence and knowledge, and had already received the degree of baccalaureate (bachelor) were called *magistri artium* (master of the liberal arts.)

In 1920, the new University of Maryland awarded its first M.A. and M.S. degrees in fields other than agriculture.

The Bachelor's Degree

The bachelor's degree represents completion of a four-year course of study of collegiate grade and is the oldest academic degree used by American institutions of higher learning. The degree, Bachelor of Arts, was first conferred in America in 1642 on the first nine graduates of Harvard College.

Maryland Agricultural College, which was later to become the University of Maryland College Park, awarded the first Bachelor of Arts and Bachelor of Science degrees in 1862.

Clarence Mitchell, Jr.

HONORARY DOCTOR OF LETTERS AND
COMMENCEMENT SPEAKER

Clarence Mitchell, Jr., longtime Director of the Washington Bureau of the NAACP, witnessed his first lynching 45 years ago in Princess Anne, Md. as a young reporter for the *Baltimore Afro-American*. At the time, Mitchell was already something of a civil rights activist, but after watching that event, his convictions deepened leading him toward a lifelong career of working for civil rights.

As Director of the D.C. Bureau of the NAACP throughout the most critical years of the civil rights movement until he retired last year, he worked for greater opportunities, not only for minorities, but for the handicapped and for women as well.

Born in Baltimore in 1910, Mitchell served in NAACP's Washington Branch for 32 years, starting as Labor Secretary and becoming Director of the Bureau in 1950. Although he retired in 1978, the nation's chief civil rights lobbyist continues as consultant for the National NAACP and is chairman of the Leadership Conference on Civil Rights.

Named *Director Emeritus* of the Washington NAACP, Mitchell was also awarded the Spingarn Medal at the NAACP's National Convention this summer for his untiring efforts in obtaining passage of the 1957 Civil Rights Act which gave the U.S. Attorney power to protect the right to vote; the 1964 law forbidding discrimination in public accommodations; the 1965 Voting Rights Act banning literacy tests for five years; and the 1968 Civil Rights Act, outlawing discrimination in the sale and rental of housing.

In 1970 and again in 1975, Mitchell led the successful fight to extend the Voting Rights Act's ban against literacy tests for an additional five years, and led the successful effort to pass the 1972 legislation giving enforcement powers to the Equal Employment Opportunity Commission. He also joined in supporting the efforts to permit 18-year-olds to vote in all elections. In 1978, Mitchell joined with women's organizations in amending the Equal Employment Opportunity Act to forbid discrimination against women workers during pregnancy and childbirth and to assure their coverage under company health plans.

A graduate of Lincoln University, he earned a law degree from the University of Maryland at Baltimore. He continues his law practice in Baltimore as a senior member of Mitchell, Mitchell, and Mitchell.

His long and distinguished career has included government service with the Fair Employment Commission and the War Manpower Commission in the Roosevelt Administration. Recipient of the Adam Clayton Powell Award from the Congressional Black Caucus for his contributions to human rights, Mitchell did volunteer work in government agencies dealing with housing and employment under the Truman, Eisenhower, and Johnson Administrations.

In 1975, President Ford appointed the NAACP director to a five person delegation representing the U.S. at the Seventh Special Session and the Thirtieth Session of the General Assembly of the United Nations, and in 1976, Democratic and Republican leaders of the Senate and House of Representatives offered resolutions honoring Mitchell for 30 years of legislative service and "expressing gratitude for his contributions to the enhancement of life in America." In 1978 upon his retirement, a similar action was taken by the Senate.

Today he is awarded an Honorary Doctor of Humane Letters degree from the University of Maryland.

Philip Handler

HONORARY DOCTOR OF SCIENCE

As President of the National Academy of Sciences, Philip Handler heads a coalition of the top scientific minds in the country. Noting that election to the National Academy, chartered in 1863 by Congress and President Abraham Lincoln, is the highest honor that can be accorded a scientist or an engineer in the U.S., Handler wrote in his first annual report for the Academy's National Research Council, "This carefully constructed, intellectually powerful consultative arrangement, unique in all the world, stands ready to serve the government whenever called upon."

Handler is also chairman of the Governing Board of the National Research Council in which committees of these top scientists do research for the federal government. Over 50,000 volunteers have served the National Research Council in the last three decades.

Born in 1917 in New York City, Handler is recognized as one of the top biochemists in the country. Former chairman of the Department of Biochemistry and Nutrition at the Duke University School of Medicine, he is known for innovative research into the primary causes of disease by establishing that dietary factors are important in the prevention of liver and kidney disease.

Handler received a Bachelor of Science degree from the College of the City of New York in 1936 and a Ph.D. in biochemistry from the University of Illinois in 1939. He immediately took a position at the Duke University School of Medicine as instructor and remained there for 30 years until assuming the NAS post.

He is a former member of the Scientific Advisory Committees of the Institute for Cancer Research, Kettering Institute, Nova University, and the Scripps Metabolic Clinic and Research Foundation. The 62-year-old NAS director is currently serving on the Board of Governors of the Hebrew University of Jerusalem, the Board of Trustees of Rockefeller University as well as on the Board of Directors of the Manpower Institute and the National Multiple Sclerosis Society.

Handler has worked extensively with the National Institutes of Health since 1953 in the Biochemistry Study Section, the National Advisory Health Council, the National Advisory Council on Research Resources and Facilities, and the Committee on Health Sciences Training. He has also worked with the National Science Foundation's Panel on Biological Research Facilities, the Divisional Committee for Biology and Medicine, and the National Science Board.

A consultant to the U.S. Veteran's Administration for 10 years, Handler has also served on the President's Commission on Heart Disease, Cancer and Stroke. He has been a member of the President's Science Advisory Committee and worked on the Surgeon General's Committee on Environmental Health Problems. In 1969, Handler won the Annual Award for Distinguished Contributions to Medical Sciences by the American Medical Association. A lecturer at universities and for medical associations across the world, he was awarded The Great Cross of Honor with Star from the Government of Austria in 1977. That same year, he received the Insignia of Commander of the Order of Leopold II from the King of Belgium. Last year, the biochemist was awarded the Commandery Order of Merit from the Peoples Republic of Poland.

Today he is awarded an Honorary Doctor of Science degree from the University of Maryland.

Catherine Filene Shouse

HONORARY DOCTOR OF FINE ARTS

"It is unlikely that many private citizens ever before single-handedly made so large a gift to the country," said *Washington Post* reporter Paul Hume about Catherine Filene Shouse's 117-acre gift to the National Park Service for a summer performing arts center. "Wolf Trap represents a high point in a lifetime of involvement and interest in the arts for Mrs. Shouse. She says her greatest joy is to help make millions of families happy by providing a place where they can hear great music of all kinds."

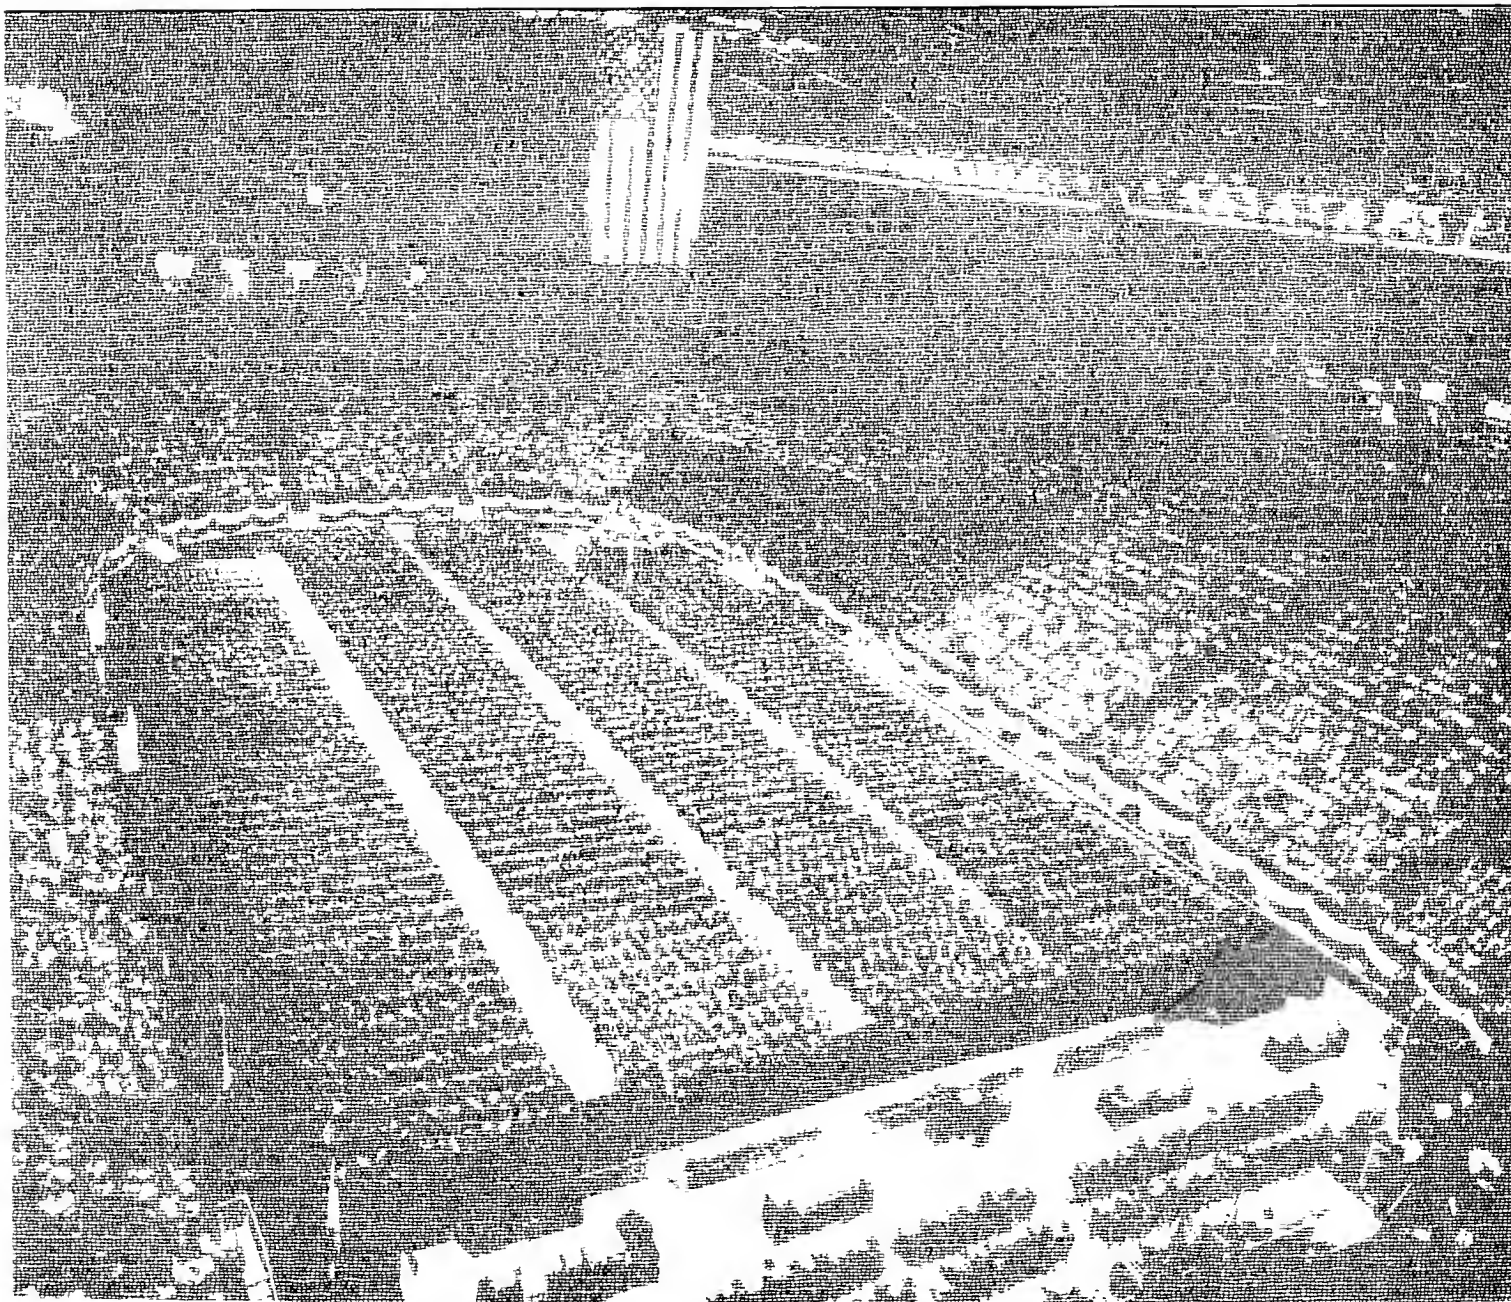

Granddaughter of a founder of the Boston Symphony, Shouse first donated 40 acres of land at her Wolf Trap Farm in Vienna, Va. in 1961 as the headquarters of the American Symphony Orchestra League. Then in 1966, she offered the balance of her Vienna farm to the National Park Service. Opened on July 1, 1971, Wolf Trap Farm Park, which has a seating capacity of 6,500 people, is the only national park for the performing arts. In addition to musical events, the park offers educational programs and workshops as well as little theatre performances.

Shouse, who was born in Boston in 1896, is not only an active promoter of music, but also one of the earliest supporters of jobs for educated women in the first quarter of the 20th century. As a student at Wheaton College, she organized conferences to promote jobs for women with more than a high school education. Assistant to the Chief of the Women's Division in World War I, Shouse enrolled in Harvard University after the war and became the first woman to receive a Masters of Education degree from the school. Author of the book, *Careers for Women*, she was also the first woman appointed by President Coolidge to be chairperson of the first Federal Prison for Women. As chairperson, she instituted job training and rehabilitation programs for women prisoners.

In 1949, Shouse organized the General Clay Fund to help the U.S. Army's Assistance Program for German Youth, and at the request of former President Hoover, she organized the Washington Hungarian Relief Fund in 1956. Awarded the City of Paris Award and the Vienna Austria Medal of Honor for Assistance to Austrian Youth in 1949, Shouse also received the U.S. Army Patriotic Civilian Award and the German Federal Republic's Commander's Cross of Merit in 1954 for her relief efforts to help war-torn Europe. In 1977, she was awarded the Medal of Freedom from President Ford.

Elected to the Board of the National Symphony Orchestra Association in 1949, she served as the association's vice president from 1951-68. In 1957, President Eisenhower appointed Shouse chairman of the President's Music Committee, and a year later he appointed her to the first Board of Trustees of the National Cultural Center, which was later named the John F. Kennedy Center for the Performing Arts. Still serving on the Kennedy Center's governing board, Shouse has also worked on the Center's executive and building committees. In 1968, she was elected Honorary Vice President of the National Symphony Orchestra Association and was appointed by Virginia Governor Godwin to the first Virginia Commission of the Arts and Humanities. Shouse was appointed in 1973 by President Nixon to the Pennsylvania Avenue Development Commission, and in 1975 to the Commission on Presidential Scholars by President Ford.

Today she is awarded an Honorary Doctor of Fine Arts degree from the University of Maryland.

Economics: *The Optimal
Replacement of Breeder
Flocks in an Integrated Broiler
Firm.*

Marie Elizabeth Held

Early Childhood-Elementary
Education: *The Effect of High
and Low Interest on the Oral
Reading Performance of
Underachieving Fourth Grade
Boys.*

- Leila Ann Hogan
Government & Politics: *Jurisdiction Over Foreign Merchant Vessels in American Waters and Ports: Territorial Jurisdiction and Law of the Flag in Selected Decisions of the United States Supreme Court, 1900-1970.*
- Rachelle Diener Hollander
Philosophy: *Medical Services and Informed Consent.*
- Ronald Chalmers Hood III
History: *The French Naval Officer Corps, 1919-1939; A Social and Political History of France's Naval Dynasties Between the World Wars.*
- Grace Elaine Jarrett
Human Development Education: *A Study of the Relationship of Maternal Age to Acceptance and Control in Childrearing Practices of Young Parents.*
- Eugene Francis Jendrek, Jr.
Chemistry: *Inelastic Scattering of LiH and H₂ by He.*
- Margaret Platt Jendrek
Sociology: *Common Law and Civil Law Legal Orders; The Treatment of Minorities.*
- Steven Marshall Kahn
Mathematics: *Characteristic Number Obstructions to Fibring Structured Manifolds over Surfaces and Low-Dimensional Spheres.*
- Deogratus Kambanda
Administrative, Supervision, & Curriculum: *A Descriptive Case Study of the Evolution of Education in Rwanda, 1962-1973.*
- James Bennett Kaper
Microbiology: *Isolation, Ecology, and Taxonomy of Human Pathogens in an Estuary.*
- Dora F. Kennedy
Secondary Education: *Design of an Exploratory Foreign Language Course Model as Procedural Manual for Middle/Junior High School, Incorporating the Results of an Investigation to Identify a Number of Basic Unifying Concepts in Language, Culture and Career Education.*
- David Rodney Kempley
History: *Challenges to Bipartisanship: Senate Republicans and American Foreign Policy, 1948-1952.*
- Ajay Prasannajit Kothari
Aerospace Engineering: *Navier-Stokes Solutions for Chemical Laser Flows: Steady and Unsteady Flows.*
- Ronald Milton Kyhos
Secondary Education: *An Analysis of the Attitudes of Senior High School Students Towards Student-Evaluated Composition in the Tenth, Eleventh and Twelfth Grades at H.H. Dow High School and Midland High School in Midland, Michigan.*
- David Charles Leonard
English: *An Analysis of a Philosophical Discourse Concerning the Mutability and Changes of the Material World* by Isaac Greenwood.
- Daniel A. Levy
Industrial Education: *Ernest Flagg and His Impact on Stone House Construction, 1921-1954.*
- Chun-Nan Liu
Mechanical Engineering: *Laminar, Mixed Forced and Free Convection. Boundary-Layer, Radiative Flames.*
- Sheldon Joseph Lloyd
Industrial Education: *The Development of the National Society for the Promotion of Industrial Education and Role in Promoting Federal Aid for Vocational Education, 1906-1917.*
- Dennis Ray Longmire
Criminal Justice & Criminology: *The Demise of Positivist Criminology: An Ideological and Empirical Evaluation of the Patuxent Institution.*
- Darcy Jane Lonsdale
Zoology: *The Population Dynamics of Two Estuarine Copepods.*
- Paul Kevin Marchetti
Economics: *Consumer Preferences and Industry Competition.*
- Bayly Ellen Marks
History: *Economics and Society in a Staple Plantation System: St. Marys County, Maryland 1790-1840.*
- Patricia Anne McGrath
Psychology: *The Existence of Non-Nociceptive Afferents in Tooth Pulp.*
- James Andrew McNeil
Physics: *Relativistic Eikonal Expansions Proton-Deuteron Elastic Scattering at Intermediate Energies.*
- Mohamad Hossein Mikhchi
Animal Science: *The Effect of Sodium Hydroxide Treatment and Cement Kiln Dust on Nutrient Availability of High Fiber Forage.*
- Gregory Andrew Nenstiel
Social Foundations of Education: *Jacob Abbott: Mentor to a Rising Generation.*
- William David Nes
Botany: *The Relationship Between Sterol Structure and Its Biological Function in *Phytophthora Cactorum*.*
- Hock Ng
Mathematics: *On the Classification of Unitary Cobordism Classes Which Have Representatives That Admit Semifree C⁰⁰ Compact Lie Group Actions Preserving SACX Structure.*
- Robert Dean Niehaus
Economics: *The Social Cost of Stratospheric Modification from Agriculture Nitrogen Use.*
- Josephine King Olsen
Human Development Education: *The Effect of Change in Activity in Voluntary Association on Life Satisfaction Among Women 60 and Over Who Show a Pattern of Activity.*
- Judith Ellen Sprei Ott
Psychology: *The Treatment of Depression in Women.*
- K. N. Parthasarathy
Aerospace Engineering: *High Energy Gasdynamic Lasers.*
- Velupillai Pavanasivam
Agronomy: *Effect of N, P, K, Mg and S on Zn Absorption by Barley, and the Influence of SO₄-S on Zn Uptake by Rice from Flooded Soils.*
- Shmuel Peleg
Computer Science: *Ambiguity Reduction in Probabilistic Networks.*

- Massimo Angelo Picardello
Mathematics: *Locally Compact Unimodular Groups with Completely Reducible Regular Representation.*
- Wayne Nicholas Polyzou
Physics: *Combinatoric Hamiltonian Unitary Connected Kernel (C.H.U.C.K.) Theory.*
- Michael Mario Primiani
Entomology: *Ethological Significance of Compounds Comprising the Female Sex Pheromone of Heliothis zea and Heliothis virescens.*
- Amul Purohit
Horticulture: *Effects of 2,3-dihydro-5-6-diphenyl-1;4-oxathiin on the Shoot Apex of Chrysanthemum morifolium Ramat. 'Paragon in Relation to Auxin Metabolism, Meristematic Activity, and Organogenesis.*
- Augustin Francois Quilici
French & Italian Language and Literature: *The Genesis of Zola's Novel LA CUREE.*
- Paul Anthony Raia
Human Development Education: *Cognitive Skill-Training in the Adventitious Elderly Blind: The Utility of the Method of Loci.*
- Dennis Clyde Roberts
Counseling & Personnel Services: *Developmental Maturity: A Critical Element in Leadership Effectiveness.*
- Evelyn Scales
Early Childhood/Elementary Education: *An Investigation of Measured Parental Attitudes Towards Child Rearing and the Continuity of Achievement of Title I Children.*
- James Arthur Schmidt
Administration, Supervision, & Curriculum: *The November, 1975 New Haven, Connecticut Teachers' Strike: An Analysis of its Causes, Effects and Implications.*
- Elaine Langerman Shalowitz
Secondary Education: *A Design for Describing a National Educational Effort, Such as Reading, Using Techniques from the Systems, Anthropological and Comparative Education Fields.*
- Cynthia Ward Smeltz
Counseling & Personnel Services: *Effects of the Content of Therapist Self-Disclosing Statements on Adolescents in Therapy.*
- Karen Gienapp Soeken
Measurement & Statistics: *The Effect of Parameter Changes on Estimates Using the Randomized Response Technique.*
- Joseph Angelo Spatola
Chemical Engineering: *The Study of the Interaction of Bromine with Micron and Submicron Aerosols.*
- Henry Ernest Sprance
Entomology: *The Determination of Transovarial Transmission of Eastern Equine Encephalitis Virus by the Mosquito Culiseta melanura (Coq.).*
- Mitchell Staude
Philosophy: *Desiring: An Analysis of One Concept of Wanting.*
- Carol Lee Steinberg
Human Development Education: *Personality, Perceptual and Biographical Characteristics of Normal Weight Women and Overweight Women of Varying Age of Onset of Overweight.*
- Nancy Lynn Struna
Physical Education: *The Cultural Significance of Sport in Colonial Massachusetts and the Chesapeake.*
- Stephen C. Swaim
Economics: *Theory and Policy in the Economic Thought of Leo Rogin.*
- Sue Ann Thomas
Human Development Education: *A Descriptive Study of the Effects of An Intake Interview on the Cardiac Activity of Coronary Care Patients.*
- Marian L. Thompson
Measurement & Statistics: *Predictive Validity of Subset Regression Procedures.*
- Daniel Daum Townsend
English: *Ben Jonson in France before the Revolution.*
- Gaila Marie Twitty
Early Childhood/Elementary Education: *Factors Contributing to the Regular Classroom Teachers' Attitudes Toward Integrating Handicapped Children with Non-Handicapped Children in the Public Elementary School.*
- Figen Unlu
Entomology: *Metabolism of Trifluralin in Rats.*
- Edward D. Walton
Chemistry: *Nuclear Magnetic Resonance Studies of Phosphine Selenides.*
- Jacqueline Ann White
Secondary Education: *Clarity and Student Opportunity to Learn: An Investigation of Two Components of Instructional Communication as Assessed by Situational Testing of Pre-Service Teachers.*
- Michael Charles White
Agronomy: *Heavy Metal Solubility and Transport in Xylem Fluid.*

Candidates for Degrees

DECEMBER 18, 1979

The 1979 class roster comprises degree candidates from the undergraduate and graduate programs at the University's College Park Campus. As final action cannot always be taken for candidates by the time this program is printed, the list of candidates here is tentative only. The University reserves the right to withdraw or add names. All diplomas will be mailed by the Registrations Office.

Students who have earned their degrees from the College of Education may obtain a Statement of Certificate Eligibility in the College of Education Records Office (Room 3201). Other students who have completed teacher education programs will receive their statements in the mail (separate from the diploma) upon verification of required coursework.

Graduate School

Candidates will be presented by Dr. Robert E. Menzer, Acting Dean for Graduate Studies and Research.

Doctor of Philosophy

Alawi Nuri Abussuud
Government & Politics: *Administrative Development and Planning in Saudi Arabia: The Process of Differentiation and Specialization.*

John Mitchell Allman III
Geography: *Yeoman Regions in the Antebellum Deep South: Settlement and Economy in Northern Alabama, 1815-1860.*

Gad Alon
Physical Education: *The Spurt and Shunt Muscle Function Theory.*

Mary Lou Sweet Anderson
Early Childhood/Elementary Education: *The Development of an Instrument to Measure Early Childhood Teachers' Attitudes Toward the Touching Behaviors of Young Children.*

James Allen Armbruster
Agronomy: *The Response of Corn (*Zea mays* L.) and Soybeans (*Glycine max* L. Merr.) to Saline Aerosol Drift from Brackish Water Cooling Towers Associated with Electrical Power Plants.*

Tevfik Bardakci
Chemical Engineering: *Heterogeneous Gas-Solid Reaction Studies in a High Temperature Diffusion Cell Reactor.*

Robert Lewis Bastress
Administration, Supervision, and Curriculum: *The Relationship of Teacher Leadership Style, Teacher Experience, and Student-Teacher Relations with Teacher Effectiveness.*

Paula Ruark Beath
Early Childhood/Elementary Education: *An Examination of the Relationship Between On-task Behavior During Sustained Silent Reading and Reading Achievement.*

Joanne Rossi Becker
Secondary Education: *A Study of Differential Treatment of Males and Females in Mathematics Classes.*

Abraham Bekele
Agricultural & Resource Economics: *An Economic Analysis of Schistosomiasis Control Activities.*

Mark David Bertness
Zoology: *Competition, Reproduction, and Predator Defense in a Tropical Hermit Crab Community.*

Shirley A. Reynolds Blakely
Nutritional Sciences: *Long Term Effects of a Moderate Fructose Diet on Glucose Tolerance and Lipogenesis in Rats.*

Marilyn R. Block
Human Development Education: *Effect of Work Pattern on Women's Satisfaction with Retirement.*

Thomas Charles Borzilleri
Economics: *A Microsimulated Model of Retirement Decisions and Social Security Policy.*

Stephen E. Brown
Criminal Justice and Criminology: *A Theoretical Model of the Deterrent Effect of Police Presence.*

Stephen P. A. Brown
Economics: *Public Choice, Intergenerational Equity, and the Social Rate of Discount.*

Beth Lettow Brusius
Secondary Education: *Status of Home Economics and Related Programs in Community/Junior Colleges in the United States.*

J. Robert Burch
Counseling and Personnel Services: *The Development and Evaluation of a Student Needs Instrument for High School Students.*

Anne M. Butler
History: *Prostitution in the Trans-Mississippi West: 1865-1890.*

Thomas Albert Carey
Physics: *A Systematic Study of Alpha-Particle Spectroscopic Strengths Using the (*p,pa.*) Reaction at 101.5 MeV.*

Nancy Naomi Carlson
Secondary Education: *An Exploratory Study of the Characteristics of Students Who Are Gifted and Talented in the Area of Foreign Languages.*

Hyo-Duck Chang
Meteorology: *Spatial and Temporal Distributions of Vertical Velocities and Their Relationship to the Atmospheric Circulation.*

- Walter J. Chappas
Nuclear Engineering: *Radiation-Induced Crosslinking and Grafting Reactions in Polyethylene.*
- Linda Mee-Yan Cheung
Sociology: *Modernization and Ethnicity.*
- Kwang Choi
Economics: *A Study of Comparative Rates of Economic Growth.*
- Mark MacNeal Christhilf
English Language and Literature: *W. S. Merwin: An Appreciation.*
- Pamela Elizabeth Clark
Chemistry: *Correction and Correlation of Lunar Orbital X-ray Fluorescence Intensity Ratios.*
- Jean R. Cohen
Early Childhood/Elementary Education: *The Interaction of Sequence of Instruction and Teacher Guidance on Mathematics Achievement of Field Dependent and Field Independent Students.*
- William Charles Cunningham
Chemistry: *The Composition, Sources and Sink of South Polar Aerosol.*
- Eloise Shelton Curry
Human Development Education: *The Retention of Specific Language Skills, Acquired Through a Short-term, Intensive, Teacher-directed Program, Among Economically Disadvantaged Preschoolers.*
- Daniel Michael Curtis
Mechanical Engineering: *The Numerical Analysis of Elastic Bodies of Revolution.*
- Frank Cuttitta, Jr.
Microbiology: *The Cross-linking of Macrophage Plasma Membrane Receptors by Migration Inhibitory Factor (MIF): A Molecular Mode of Action.*
- James Anthony DiStefano
Measurement & Statistics: *A Monte Carlo Approach to the Sampling Error of Estimates of Generalizability Statistics from a Two Facet Completely Crossed Generalizability Study.*
- Barbara Bradbury Dollar
Human Development Education: *Performance on Two Measures of Reflection/Impulsivity in Preschool Males.*
- Stephanie Doores
Food Science: *Sporolactobacillus: Occurrence and Description.*
- Adrienne Susan Escoe
Early Childhood/Elementary Education: *The Effects of Written Linguistic Context on Word Meaning for Sixth-Graders.*
- Michael Paul Failey
Chemistry: *Neutron-Capture Prompt Gamma-Ray Activation Analysis: A Versatile Nondestructive Technique for Multi-Element Analysis of Complex Matrices.*
- Ira R. Forman
Computer Science: *Prime Program Decomposition.*
- Bernard T. Franck
Comparative Literature: *The Blessed Virgin and the Lady of Amour Courtois: Dual Manifestations of the Archetypal Feminine.*
- Shelia Constance Fridovich
Hearing & Speech Science: *The Developmental Language Program.*
- Judith Lynn Frum
Counseling & Personnel Services: *Development of the Close Friendship Scale: An Examination of the Characteristics of Friendship Related to a Person's Sex.*
- Diane Mary Lisa Gayeski
Administration, Supervision, and Curriculum: *The Ethnic Studies Curriculum: The Development and Evaluation of a Model for Community Based Materials.*
- Spencer Hugh Gelband
History: *Mental Retardation and Institutional Treatment in Nineteenth Century England, 1845-1886.*
- Eileen K. Glancy
English Language and Literature: *Turning Toward The Other: The Influence of Theodore Roethke on Three Poets.*
- David J. Gleason
Human Development Education: *The Development of an Instrument to Measure the Degree of Professionalism in the Attitudes of Child Care Workers.*
- Robert Lee Haar
Computer Science: *The Representation and Manipulation of Position Information Using Spatial Relations.*
- Suzanne Hamilton
Zoology: *Comparison of Shell Morphologies between Five Freshwater Gastropods with Respect to Predation. Life History and Dispersal.*
- James Robert Haws
Counseling and Personnel Services: *Male Student Needs: Then and Now.*
- Kenneth Crawford Hayes, Jr.
Computer Science: *Reading Handwritten Words Using Hierarchical Relaxation.*
- Richard Philip Healy
Civil Engineering: *The Sorption of Copper on Montmorillonite Under Various Temperature Conditions and in the Presence of Inorganic and Organic Ligands.*
- Patricia Plaza Heeney
Special Education: *An Investigation of the Correlates of Effective Teaching for a Second Grade Unit on Following Directions and Word Structure for Students of High, Medium, and Low Achievement.*
- Murray Wayne Hefley
Horticulture: *Growth and Foliar Accumulation of Mineral Nutrient Elements by Buxus sempervirens L. as Affected by Nutrient Level, Soil Type, Soil pH and Source of Nitrogen.*
- Martin Herman
Computer Science: *A Model of Understanding the Semantics of Human Stick Figures.*
- J. Michael Hihn
Economics: *The Hierarchical Ranking of Projects Methodology and Economic Theory.*
- Elwood Fayette Hill
Poultry Science: *Toxic and Stimulatory Effects of Inorganic and Organic Mercury Chloride to Japanese Quail.*

- Hannah Rothstein Hirsh
Psychology: *Employment and Homemaking Participation of College Educated Women.*
- Viet-Dung Hoang
Electrical Engineering: *A Class of Arithmetic Burst-Error-Correcting Codes for the Fibonacci Computer.*
- Patrick Gilmer Hoffman
Chemistry: *The Application of N-Aryl Trifluoromethane Sulfonamides to the Synthesis of Carbonyls and Carbonyl Synthons.*
- James Reid Horney
Government & Politics: *The Regulation of Hospital Costs.*
- Lois Betts Hoskins
Administration, Supervision, and Curriculum: *Interactive Effect of Field-Dependence-Independence and Learner's Knowledge of Behavioral Objectives on Achievement of a Verbal Learning Task by Student Nurses.*
- Christopher James Hough
Chemistry: *Methylated Albumin and Methylated Albumin Kiesegeluhr Columns.*
- Beverly Jean Howard
Psychology: *Influence of the "Race-Sex Interaction" on Vocational Orientation in College Students.*
- Barbara Jeanne Hunt
Psychology: *Quality of Life for Women Who are Single Parents.*
- Calvin Clarence Jillson
Government & Politics: *Compromise and Coalition Realignment in the American Constitutional Convention of 1787.*
- Geraldine Niva Johnson
English Language and Literature: *Rag Rugs and Ruggers of Western Maryland: A Study of Craft in Community.*
- Margaret Noble Kain
Administration, Supervision, and Curriculum: *Development of Conflict Between a State Higher Education Coordinating Board and Institutions of Higher Education and State Agencies.*
- Barbara Beigun Kaplan
History: *The Medical Writing of Robert Boyle: Medical Philosophy in 17th Century England.*
- Bela Kissz
History: *The Maort Operation: History of the Standard Oil Company (New Jersey) in Hungary 1938-1948.*
- Sinikka Pirjo Koskiala
Library and Information Services: *Flow of Technical Information Through the Industrial Information Services in Finland.*
- John Steven Landefeld
Economics: *Control of New Materials with Carcinogenic Potential: An Economic Analysis.*
- Debra Yuhaz Lederer
Early Childhood/Elementary Education: *An Investigation Into the Effect of a Specific Comprehension Strategy Upon the Critical Reading Achievement of Gifted Elementary Students.*
- Robert Michael Lefler
Computer Science: *Chemical Structure Elucidation by Pattern Analysis of ¹H Nuclear Magnetic Resonance Spectroscopy.*
- Bernard J. Leikind
Physics: *Plasma Wave Studies with A Wide Bandwidth Correlator.*
- Frederico R. León
Psychology: *The Role of Positive and Negative Outcomes in the Process of Work Motivation: An Experimental Study.*
- Marsha Corn Levine
Administration, Supervision, and Curriculum: *An Exploratory Study of the Relationship Between Student Teaching Setting and Changes in Professional Self-Image in Student Teachers and Cooperating Teachers.*
- Jonathan D. Lewis
Counseling and Personnel Services: *The Use of Goal Attainment Scaling to Evaluate Individual Counseling Outcomes at a University Counseling Service.*
- Hsin An Li
Electrical Engineering: *CO₂ Waveguide TE Lasers.*
- Lois Lucille Linn
Administration, Supervision, and Curriculum: *A Descriptive Analysis of Community College Nurse-Faculty Activities.*
- Leslie Yu-chai Lai Liu
Chemistry: *An Investigation of the Solution Conformations of Thyroid Hormone Analogs with the NMR-Lanthanide Shift Reagent Technique.*
- Pamela Olivia Long
History: *The Vitruvian Commentary Tradition and Rational Architecture in the Sixteenth Century: A Study in the History of Ideas.*
- W. Christopher Love
Human Development Education: *Children's Perception of Parental Behavior As An Antecedent of Children's Focus of Control.*
- Daniel W. Lozier
Applied Mathematics: *Numerical Solution of Linear Difference Equations.*
- Archie Howard Lucas
Administration, Supervision, and Curriculum: *An Analysis of the Graduate School Achievement of Students in Various Categories Based on Undergraduate Grade Point Averages.*
- Noreen Anne Lyne
Administration, Supervision, and Curriculum: *The Relationship Between Adult Students' Level of Cognitive Development and Their Preference for Learning Format.*
- Ray Hodgson MacSorley
History: *Millennialism in Eighteenth Century America.*
- Paul Sze-Ngai Mak
Electrical Engineering: *Optically Controlled Millimeter Wave Propagation and the Applications of Picosecond Photo-conductivity in Semiconductors.*
- Joseph Patrick Maloney
Human Development Education: *Job Stress and Its Consequences on a Group of Intensive Care and Non-intensive Care Nurses.*
- Leslie Peter Mandell
Human Development Education: *An Investigation of the Relationship Between Ego Identity, Identity Crisis Resolution, and Coping Behavior Among College Freshmen.*

- Rosemary Daly Marcuss
Economics: *The Inventory-Backlog Model*.
- Cecil Miles Massie
Agricultural and Extension Education: *Agriculturally Related Accidents in Maryland in 1974 and Their Relationship to Selected Variables*.
- Barbara Ann McCardell
Microbiology: *An Approach for the Recovery of Thymine Requiring Mutants of Hyphomicrobium neptunium*.
- Thomas Richard McCarthy
Economics: *Physician Objectives and the Determination of Fees for Medical Care*.
- William Mitchell McCormick
Chemistry: *An Investigation of the Hormone Binding Site of Neurophysin by Photoaffinity Labeling*.
- Barbara Claire McCullough
Sociology: *A Social Psychological Analysis of Contextual Dissonance Effects on the Self-Concept*.
- Lynda Donnelly McNeil
Comparative Literature: *Alchemies of the Mind: Style and Vision in the Poetry of Arthur Rimband, Hart Crane and George Trakl*.
- Virginia McCord Mecklenburg
Art: *Criticism and Theory: An Analysis of the Acceptance of Modern American Painting by New York Critics, 1910-1920*.
- Douglas John Messerli
English Language and Literature: *Antecedents of Post-modern Fiction: Definitions towards a New Literary History, 1900-1950*.
- Roger Emmit Mitchell
Psychology: *Coping Style, Psychosocial Climate, and System Linkages as Correlates of Social Networks*.
- Jeffrey Myron Mohr
Computer Science: *Workload Characterization of Computer Systems*.
- Philip Joseph Morrison
Physics: *Streaming Instabilities in Astrophysical Plasmas*.
- Timothy C. Muzzio
Human Development Education: *The Comprehension of the Relational Term Less as it Relates to the Ability to Senate*.
- Rose Sgarlat Myers
Human Development Education: *Visual Habituation in the Thirteen Month Old Infant with Myelomeningocele and Associated Hydrocephalus*.
- James R. Myra
Physics: *Nonlinear Electrostatic Ion Cyclotron Waves*.
- Charlotte Slayton Nace
Nutritional Sciences: *Dietary and Hormonal Regulation of Glucose-6-Phosphate and Malic Enzyme in Rat Liver and Adipose Tissue*.
- Henry P. Nelson
Chemistry: *Physical Binding of Pyrene to DNA*.
- Georgia Stevens Nerud
Secondary Education: *A Survey of the Extent of Involvement of Professional Home Economists in Public Affairs Activities*.
- Robert E. Nichols
Government & Politics: *Jean Piaget's Theory of Respect and Equilibrium*.
- George Michael Norvell
Administration, Supervision, and Curriculum: *A Reference Dictionary of Terms in the Published Works of Herbert Marshall McLuhan*.
- Steve Allen Orndorff
Microbiology: *The Ecological and Physiological Effects of Kepone on Marine Bacteria and Biotransformation of Kepone by Pseudomonas aeruginosa KO3*.
- John Joseph Parkington
Psychology: *Individual—Work Context 'Fit' and its Impact on Work Satisfaction and Turnover*.
- Roger Lee Parrott
Administration, Supervision, and Curriculum: *A Study of the Professional Activities of Full Time Faculty in Five Liberal Arts Colleges of the Church of the Nazarene*.
- Dorothy Charlene Pasco
Administration, Supervision, and Curriculum: *The Comparison of Two Different Interviewing Techniques as a Method for Teacher Selection*.
- Judy Pearle Clarke Pelham
Psychology: *A Study of Correlates, and the Effect of Race and Sex on Career Choice Realism*.
- Robert Slocum Preece
Economics: *Economics of Transnational Pollution*.
- Robert William Reiter, Jr.
Computer Science: *Empirical Investigation of Software Development Approaches*.
- Glenn Ricart
Computer Science: *Efficient Synchronization Algorithms for Distributed Computer Networks*.
- Gavin Patrick Riordan
Zoology: *Comparative Ultrastructure and Systematics of Five Gymnostome Ciliates: Chaenea vorax, Helicoprodon multinucleatum, Placus striatus, Prorodon morgani, and Spathidiopsis socialis*.
- Herman John Ruoff
Secondary Education: *A Validation Estimate of a Derived Learning Hierarchy of Behavioral Objectives for a Unit of Introductory Physical Science (IPS)*.
- Earl Vincent Sager
Physics: *Search for the Conversion Muonium ($M + e^-$) → Anti-Muonium ($M - e^+$)*.
- Bettina Varnell Monroe Scott
Secondary Education: *How the Black Press Reports Educational Controversy—A Case Study*.
- Michael Richard Sedmak
Economics: *A Microeconomic Assessment of Factors Effecting the Economic Viability of Solar Technologies*.
- David Paul Seeman
Psychology: *Preference for Counseling Environments as a Function of Cognitive—Development Levels*.
- David Edmund Servinsky
Counseling and Personnel Services: *The Use of Individual Differences in Auditory Processing of Compressed Speech As an Aptitude Measure*.

- George Randall Sheckart
Human Development Education: *Empathy, Locus of Control and John Alan Lee's Colour Theory of Love.*
- Harvey Lawrence Shubert
Psychology: *Interpersonal Perceptions and Propensity Toward Hostile Reaction in Delineated Populations of Rapists and Other Aggressive Offenders.*
- Michael Sinutko, Jr.
Electrical Engineering: *Mixed-Valued Logic.*
- Mark Small
Chemistry: *Concentrations of Particulate Trace Elements in Plumes from Industrial Sources.*
- Edwin Howard Smead, Jr.
History: *The Lynching of Mack Charles Parker in Poplarville, Mississippi, April 25, 1959.*
- Barbara Clark Stahly
Chemistry: *Kinetic Study of Cycloadditions to 7-Substituted Norbornadienes. Synthesis of Potential Analgesics.*
- Glenn Patrick Stahly
Chemistry: *Reactions of 2,3-Diphenylthiirene 1, 1-Dioxide with Nucleophiles. Synthesis of Antileukemic Trichothecene Esters from Fungal Metabolites.*
- Frances Ellen Stetson
Administration, Supervision, and Curriculum: *Critical Administrative Factors Which Facilitate the Successful Inclusion of Severely Handicapped Students in the Least Restrictive Environment.*
- Janice Elaine Stevenson
Psychology: *Counselor Anxiety in Response to Black and White Female Clients.*
- Suzanne Jo Suchard
Zoology: *An Analysis of the Morphogenetic Events Leading to Telotroch Formation, Settlement, and Stalk Development in the Peritrich Ciliate, Zoothamnium arbuscula.*
- Paul Stephan Tabor
Microbiology: *Structure and Function of Deep-sea Microbial Populations.*
- G. Roger Tatum

Scholarship Honors

Candidates for bachelor's degrees who have earned honors for scholarship upon graduation are indicated in the alphabetical listings by Division or College. To be eligible for consideration for such honors a candidate must meet the following general criteria:

(1) have completed two years of work at the University of Maryland (60 semester hours) and
(2) have a scholastic average of B (Grade Point Average of 3.000) or higher in University of Maryland work prior to the last semester of registration before award of degree.

December, 1979 candidates who meet these criteria are shown in the alphabetical lists as qualifying, upon graduation, for the designations "Summa Cum Laude" if they ranked in the top two percent of the candidates in their respective Colleges or Divisions; "Magna Cum Laude," if in the next three per cent; or "Cum Laude," if in the next five per cent.

A Walking Tour through the College Park Campus

There are many interesting educational and research facilities on the College Park Campus. We have selected some of these that you may wish to visit along a walking tour. These facilities are open on weekdays from 8:30 a.m. to 4:30 p.m. You are welcome to tour them at your leisure. Other points of interest on campus may be toured by appointment through the phone extension listed after each facility. For general information, call the Student Union Information Center (454-2801).

Highlights

- **MEMORIAL CHAPEL**—(BLDG. 78) Regents Drive. Open to visitors weekdays 8:30 a.m. to 4:30 p.m. A schedule of multidominational services can be obtained in the North Administration Bldg.
- **NORTH ADMINISTRATION BUILDING**—(BLDG. 83) Regents Drive. This facility houses the Admissions Office of the University; Office of the Registrar for graduate transcripts and commencement information; and offices for student financial aid, housing, and campus employment.
- **UNDERGRADUATE LIBRARY**—(BLDG. 120) Corner of Regents and Campus Drives. Completed in 1972, the library is one of the finest in the nation. In addition to serving undergraduate students, it also houses at the graduate level the College of Library and Information Services.

- **STUDENT UNION**—(BLDG. 110) Campus Drive. A new addition to the Student Union was completed in 1972. You can obtain a building directory and schedules of events and activities at the information desk in the front lobby. Guided tours are available to the bowling alleys, billiard room, ballroom, cafeterias, motion picture theatre, and exhibits.

- **COLE FIELD HOUSE**—(BLDG. 27) Campus Drive. With a permanent seating capacity of 12,500, the Main Auditorium of Cole Fieldhouse is used for basketball games, classes in physical education, commencements, concerts, academic testing, track, and many other indoor activities. Other areas of the building contain small gymnasiums, a swimming pool, classrooms, faculty offices, a ticket booth for athletic events, and the Department of Intercollegiate Athletics.

- **TAWES FINE ARTS CENTER**—(BLDG. 115) Campus Drive. You are welcome to visit

the Art Gallery on the first floor. Offices of the departments of art, music, speech and dramatic art, and hearing and speech sciences are housed in this building. University Theatre is also located here, adjacent to Parking Lot #1.

- **SCHOOL OF ARCHITECTURE BUILDING**—(BLDG. 8) Campus Drive. You are invited to walk through this facility and view displays of student architectural designs and the faculty-designed sculpture in the West Court.

Tours by Appointment

CYCLOTRON, Department of Physics and Astronomy. The Cyclotron is available for touring on Mondays from 10 a.m. to 4 p.m. by prior arrangement. (Ext. 4152)

CENTER OF ADULT EDUCATION. The Center of Adult Education is a residential conference facility for con-

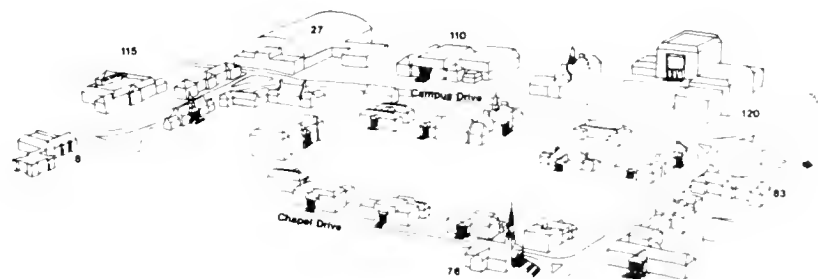

tinuing education for adults. Tours can be arranged by calling 779-5100.

McKELDIN LIBRARY. McKeldin contains materials for the use of graduate students and faculty. Tours can be arranged by appointment. (Ext. 4042)

BYRD STADIUM. Football games and track and field events are held in this stadium which holds 35,000 spectators. (Ext. 4705)

ASTRONOMY OBSERVATORY. Open House is held on the 5th and 20th of each month at 8:30 p.m. for the general public. Large groups may call for reservations at 454-3001. (For other information call Ext. 3460)

ROSSBOROUGH INN. The oldest building on the College Park Campus, Rossborough Inn is open to the public for lunch from 11:30 to 1:30 p.m. (Ext. 3940)
